EDUCATION

Bachelor of Science — Data Science

Sep 2024 – Expected May 2028

Punjab University College of Information Technology (PUCIT – FCIT), University of the Punjab, Lahore | 2nd Year, 4 Semesters Completed

Relevant Coursework:

- Database Systems — Oracle SQL (joins, aggregates, date functions, subqueries, complex conditional queries)
- Artificial Intelligence — Search algorithms: BFS, DFS, Best-First, IDDFS, A*, Minimax, Alpha-Beta Pruning; Machine Learning: Decision Trees, C4.5 Algorithm, Random Forest, Linear Regression, Logistic Regression, Gradient Descent
- Data Visualization — Power BI (DAX, time intelligence, Power Query, advanced analytics dashboards)
- Probability & Statistics — Descriptive statistics, probability distributions, hypothesis testing

TECHNICAL SKILLS

Languages	SQL (Oracle), Python, C++ (basic), HTML, CSS
Data & Analytics	Power BI (DAX · Power Query · Time Intelligence), Microsoft Excel, Pandas, NumPy
Tools & Design	VS Code, Git, GitHub, Microsoft Office Suite, Canva
Soft Skills	Analytical thinking, report writing, public communication, teamwork

PROJECTS

RAG-Based PDF Chatbot

Personal Project | Python · AI APIs · RAG

- Built a chatbot capable of ingesting PDF documents and answering user queries using retrieval augmented generation (RAG) techniques and AI APIs.
- Demonstrated applied knowledge of document parsing, embedding-based retrieval, and conversational AI interaction patterns.

Power BI Dashboard

Academic Project | Power BI, DAX, Power Query

- Designed an interactive multi-page dashboard to analyze turnaround time metrics and visualize KPIs for data-driven decision-making.
- Applied DAX measures and Power Query transformations for ETL, enabling dynamic filtering and time-based performance tracking.

AFFILIATIONS & ACHIEVEMENTS

Student Member — Co-Curricular Activities

2024 – Present

Punjab University College of Information Technology (PUCIT), Lahore

- Participated in the University Mini Olympics Cricket Tournament, demonstrating teamwork, discipline, and commitment under competitive conditions.
- Engaged in collaborative academic environments within the BS Data Science program, contributing to peer learning and group project work.
